

# Research Opportunity!

How do people think and learn about the world? How do they change in such a short time??

## Come help us find out!

**Part 1.** While looking at pictures, you may have your eye movements recorded. You may also complete questionnaires and interviews.

We are looking for people 1 month -30 years of age. Participation involves one visit for approximately 1.5 hours. Families will be compensated \$15 for travel and inconvenience.

**Part 2.** While you play a computer game, you may choose to have pictures of your brain taken with non-invasive magnetic resonance imaging (MRI).

We are looking for people 7-10, 12-15, and 20-25 years of age. Participation involves one visit for approximately 1.5 hours. Families will be compensated \$50 for travel and inconvenience.
